**Education**

- **Computer Engineering**  
Central University of Ecuador

2019 - 2025

**Technical Skills**

- **Languages:** Java, Python, Kotlin, C++
- **Backend:** Spring Boot, APIs REST
- **Frontend:** HTML5, CSS, JavaScript
- **Mobile:** Android
- **Cloud:** Microsoft Azure, Firebase
- **DevOps:** Docker, Git
- **Databases:** PostgreSQL

**Languages**

- B2 – Technical reading and effective communication

**Soft Skills**

- Logical and analytical thinking
- Commitment and responsibility
- Teamwork
- Problem-solving
- Continuous learning

**Profile**

Computer Engineering graduate from the Central University of Ecuador, with academic training and hands-on experience in programming, web development, mobile application development, cloud computing, and automation. Passionate about technology and innovation, seeking to join professional environments where I can apply my knowledge, take on new challenges, and contribute to the development of high-impact technological solutions.

**Experience**

○ **Degree Project – Computer Engineering**

Central University of Ecuador

- End-to-end development of a technological solution as a degree project, consisting of a web application and an Android mobile application focused on information management.
- Design and implementation of the backend using Spring Boot and RESTful APIs.
- Development of an Android mobile application for service consumption and data management.
- Design and optimization of a relational database in PostgreSQL, ensuring data integrity and fast query performance for the mobile application.
- Use of Firebase for authentication and data management.
- Deployment and testing in a cloud environment using Microsoft Azure.
- Preparation of technical documentation and formal project presentation.

**Certifications**

**IAEN – Graduate University of the State**

- Awarded for work carried out as part of Community Engagement activities.
- Development of a web platform for voting results visualization, displaying voter counts and vote distribution per candidate.

**Internship / Practical Experience**

**Technical Support for Institutional Computer Equipment**

Central University of Ecuador

Technical support for institutional computer equipment, including software installation and configuration, basic system maintenance, and user support, ensuring proper operation for academic and administrative activities.

**Immediate Availability**
